

Total Cases by County

(Data 6/12/2020)

(Cumulative Case Incidence)

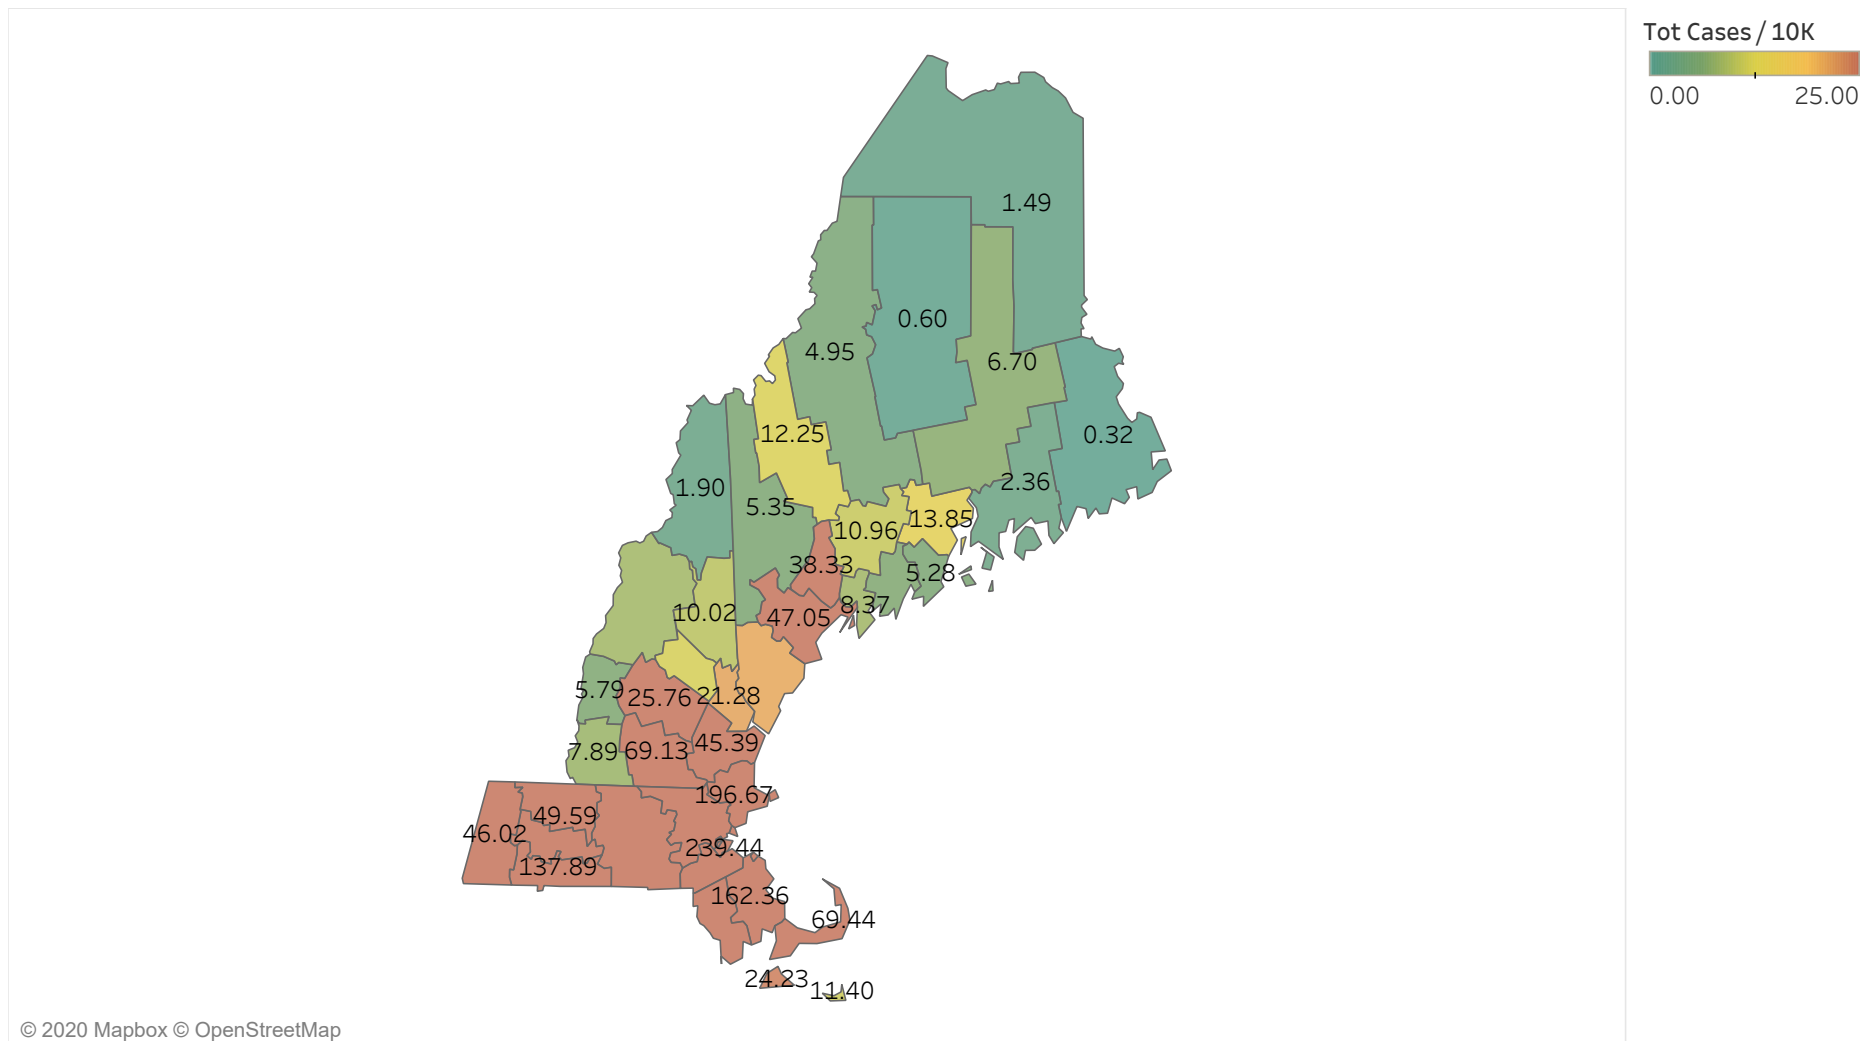

Map based on Longitude (generated) and Latitude (generated). Color shows Tot Cases as an attribute. The marks are labeled by Tot Cases as an attribute. Details are shown for State, County and MAX Date. The view is filtered on State and County. The State filter keeps Maine, Massachusetts and New Hampshire. The County filter keeps 1,785 of 1,785 members.

Total Cases / 10,000 by County

(Data 6/12/2020)

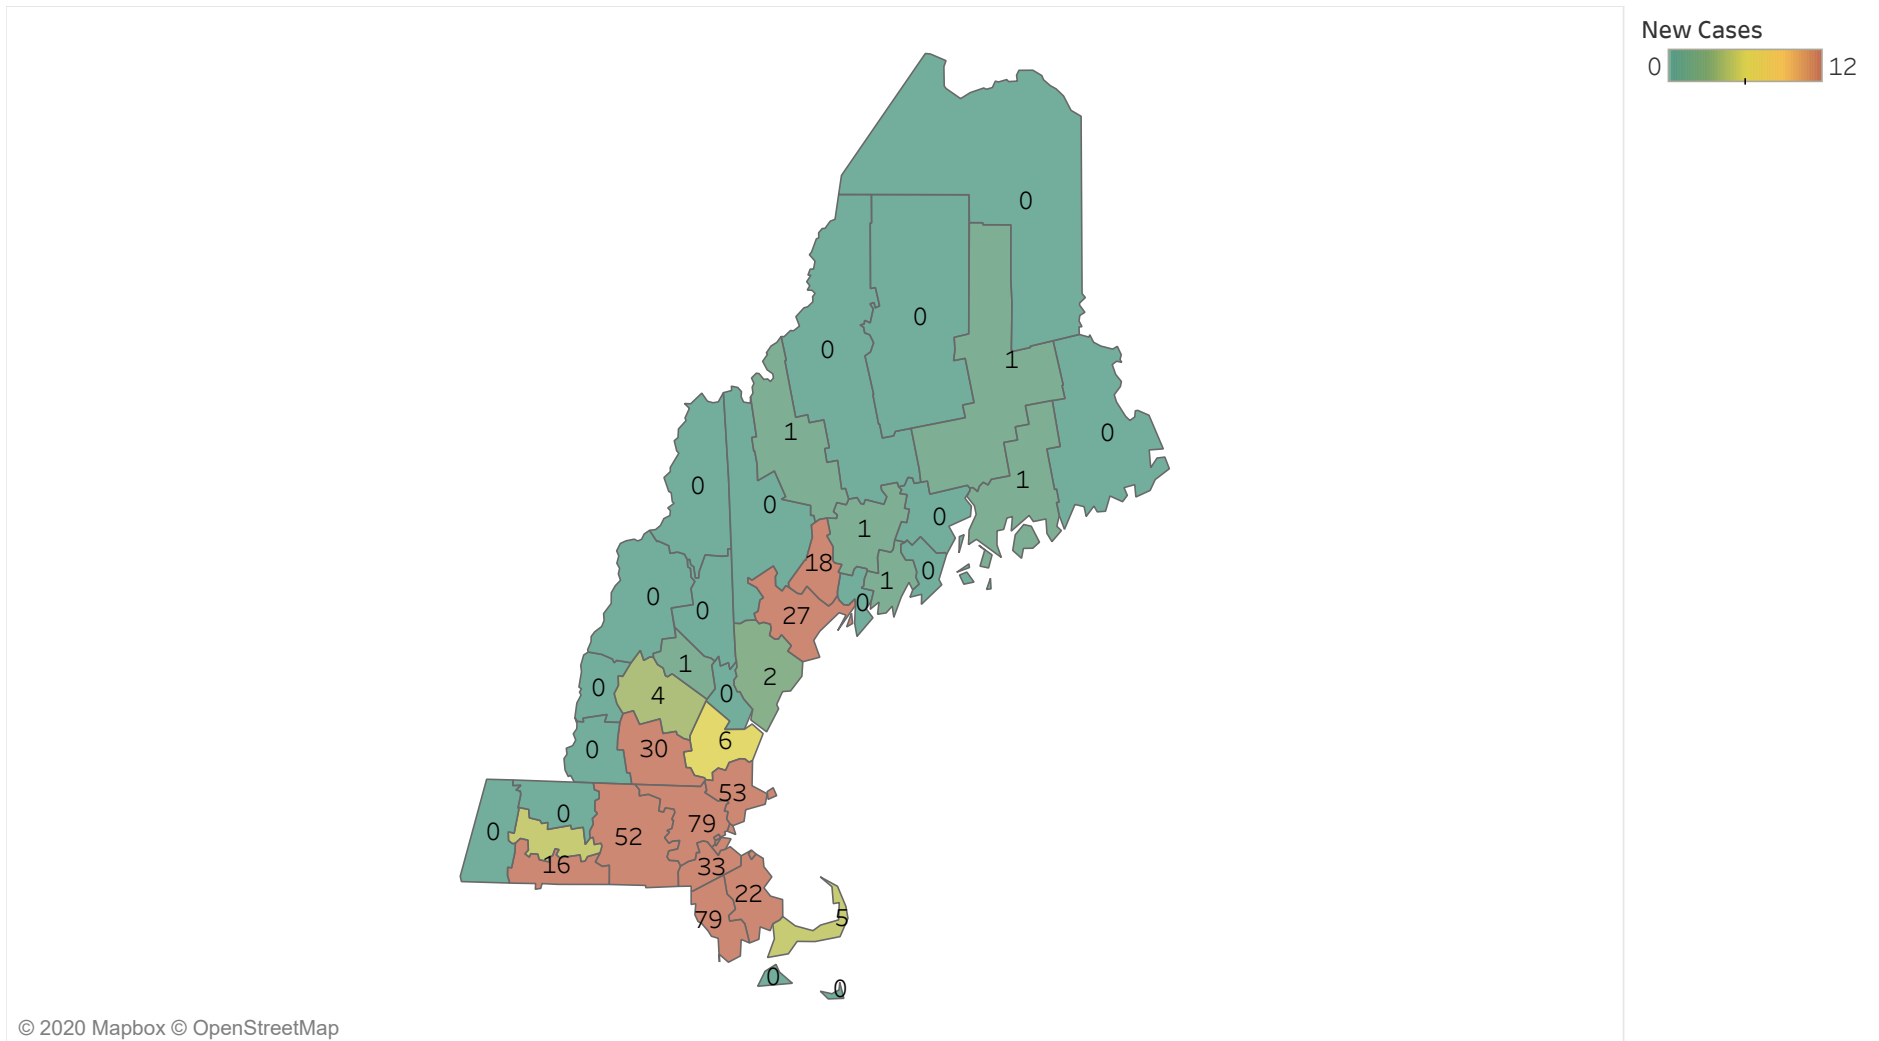

(Population-adjusted Cumulative Case Incidence)

Map based on Longitude (generated) and Latitude (generated). Color shows Tot Cases / 10K as an attribute. The marks are labeled by Tot Cases / 10K as an attribute. Details are shown for State, County and MAX Date. The view is filtered on State and County. The State filter keeps Maine, Massachusetts and New Hampshire. The County filter keeps 1,785 of 1,785 members.

(Data 6/12/2020)

(Daily Case Incidence)

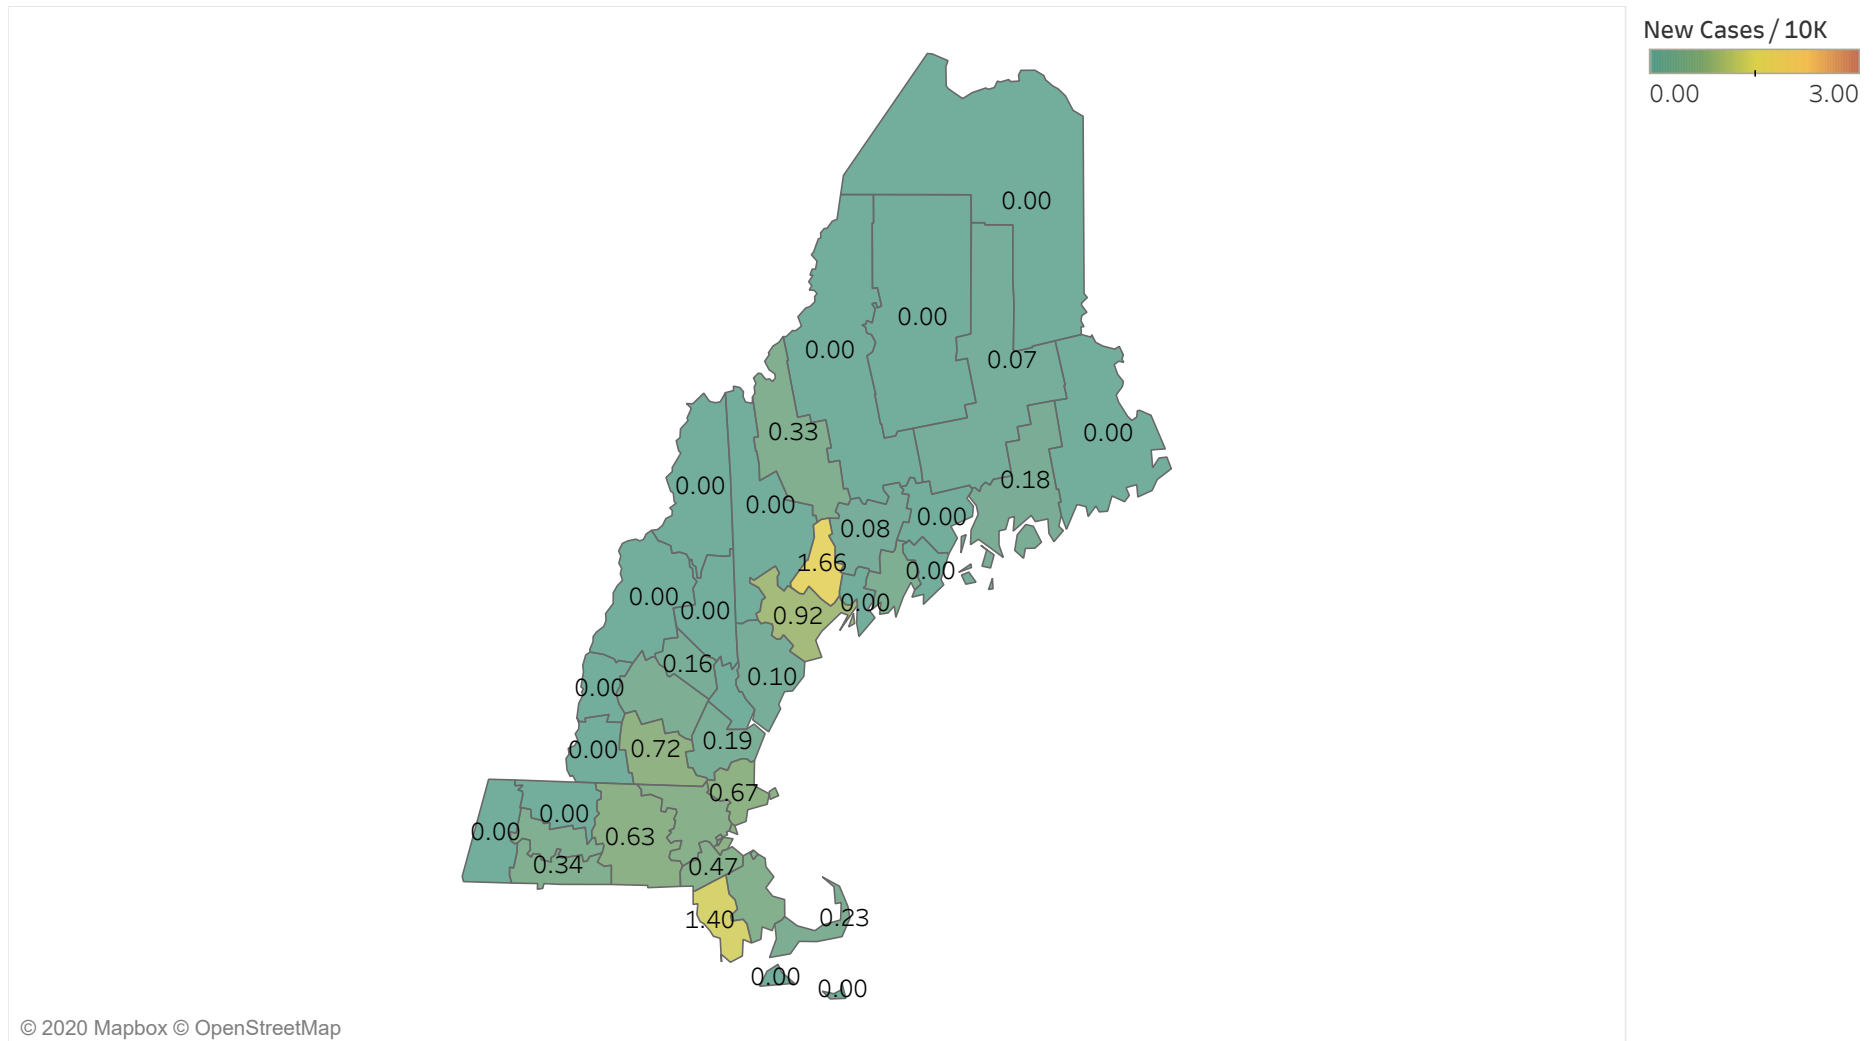

Map based on Longitude (generated) and Latitude (generated). Color shows New Cases as an attribute. The marks are labeled by New Cases as an attribute. Details are shown for State, County and MAX Date. The view is filtered on State and County. The State filter keeps Maine, Massachusetts and New Hampshire. The County filter keeps 1,785 of 1,785 members.

New Cases 10,000 by County

(Data 6/12/2020)

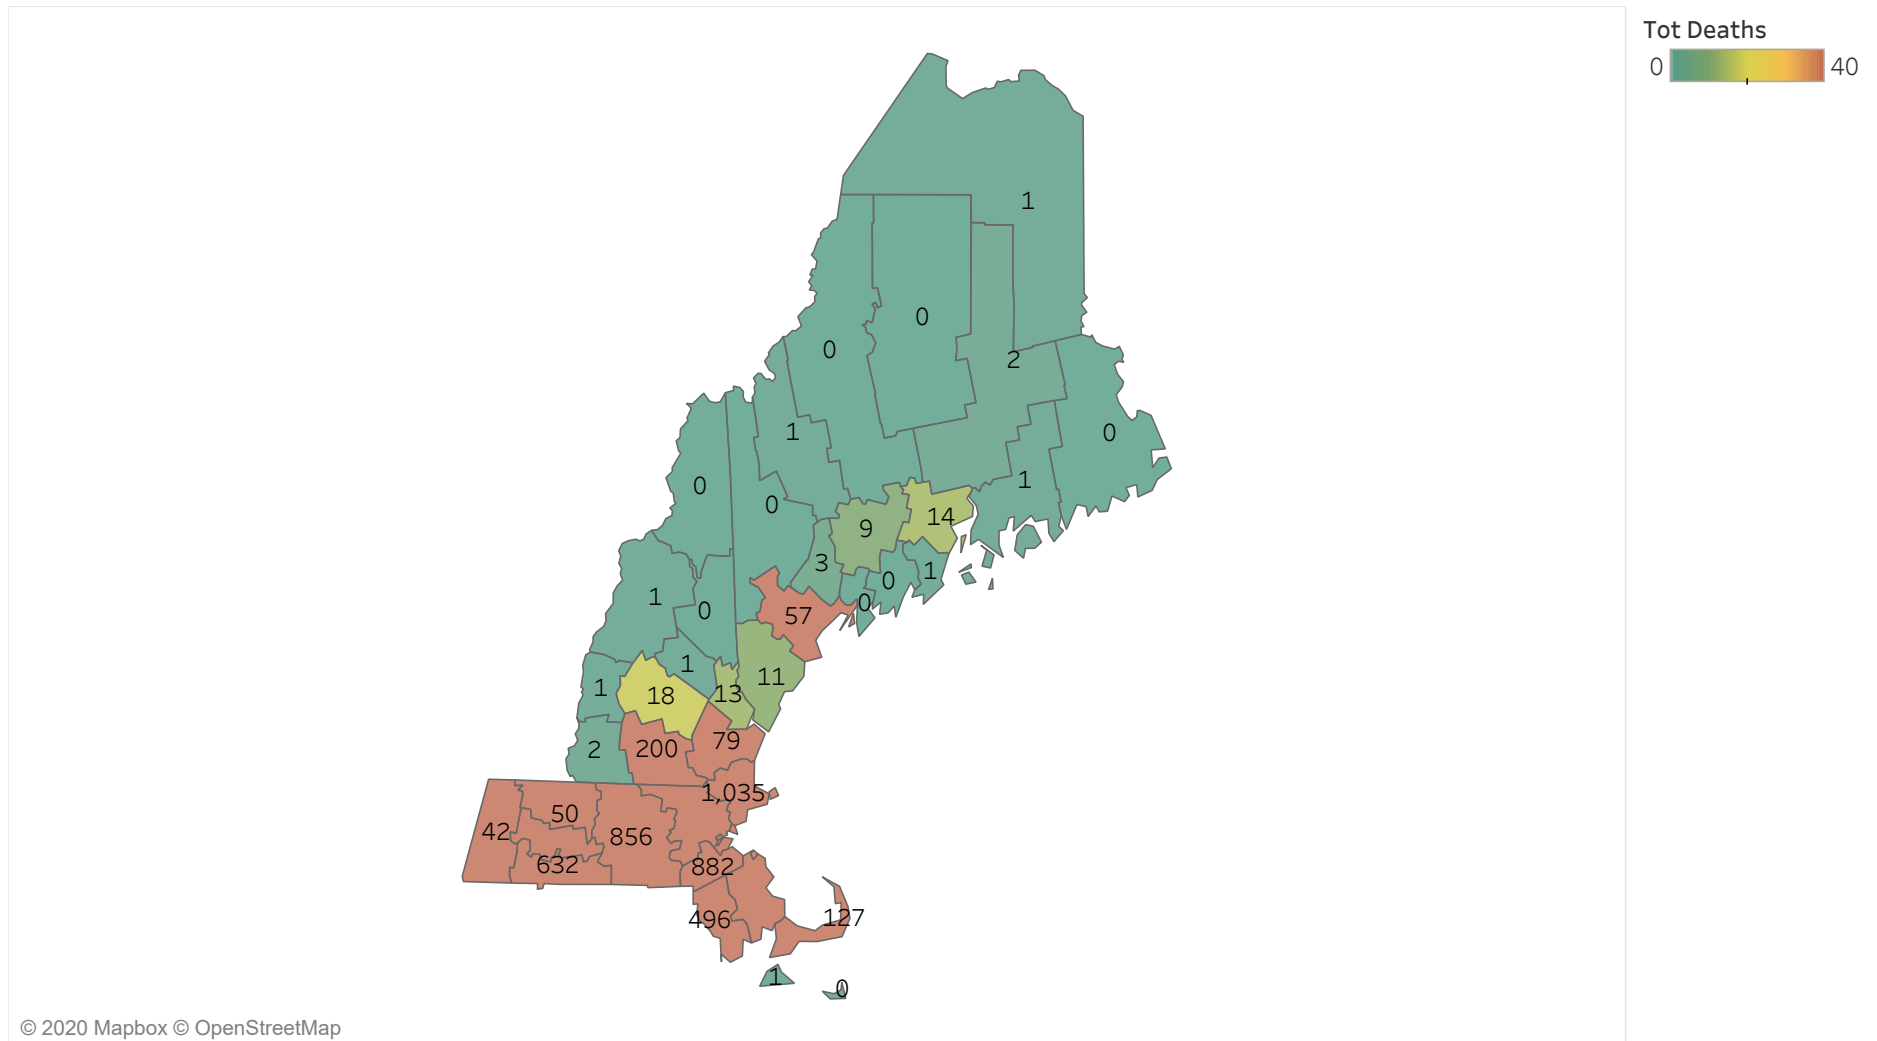

(Population-adjusted Daily Case Incidence)

Map based on Longitude (generated) and Latitude (generated). Color shows New Cases / 10K as an attribute. The marks are labeled by New Cases / 10K as an attribute. Details are shown for State, County and MAX Date. The view is filtered on State and County. The State filter keeps Maine, Massachusetts and New Hampshire. The County filter keeps 1,785 of 1,785 members.

(Data 6/12/2020)

(Cumulative Death Incidence)

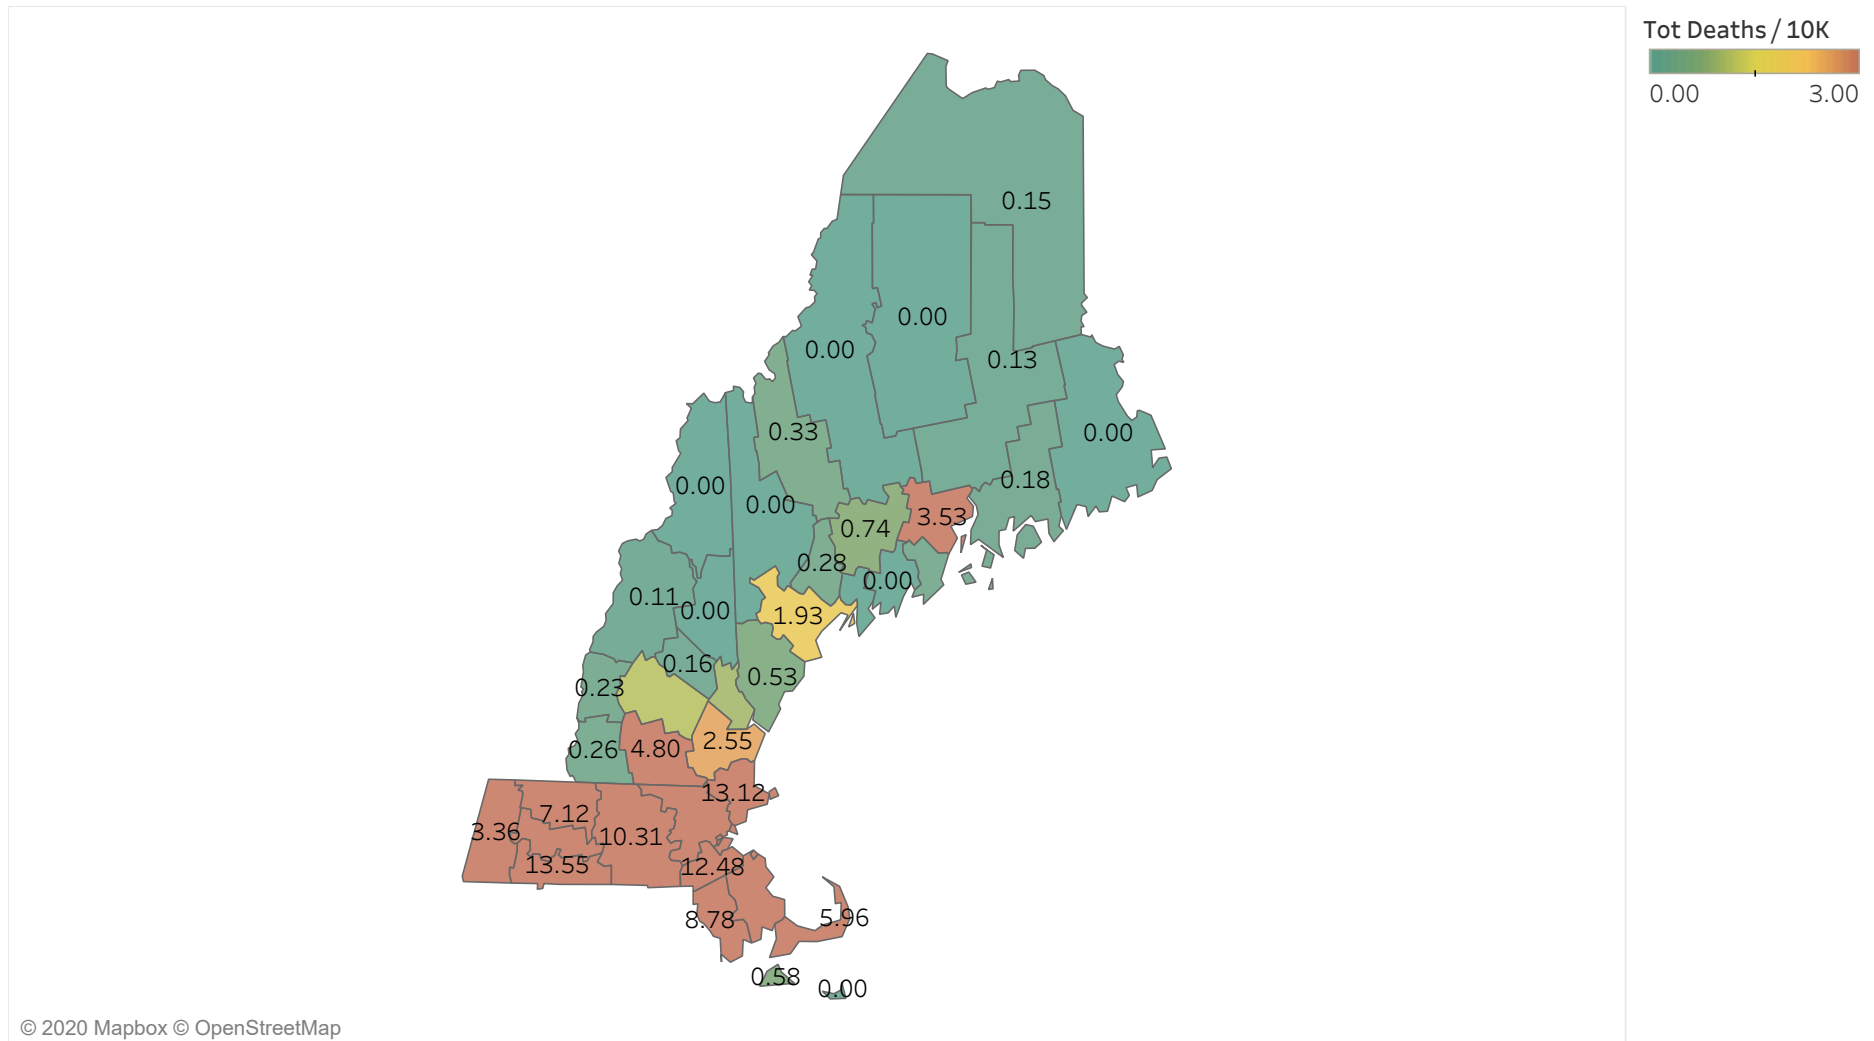

Map based on Longitude (generated) and Latitude (generated). Color shows Tot Deaths as an attribute. The marks are labeled by Tot Deaths as an attribute. Details are shown for State, County and MAX Date. The view is filtered on State and County. The State filter keeps Maine, Massachusetts and New Hampshire. The County filter keeps 1,785 of 1,785 members.

Total Deaths / 10,000 by County

(Data 6/12/2020)

(Population-adjusted Cumulative Death Incidence)

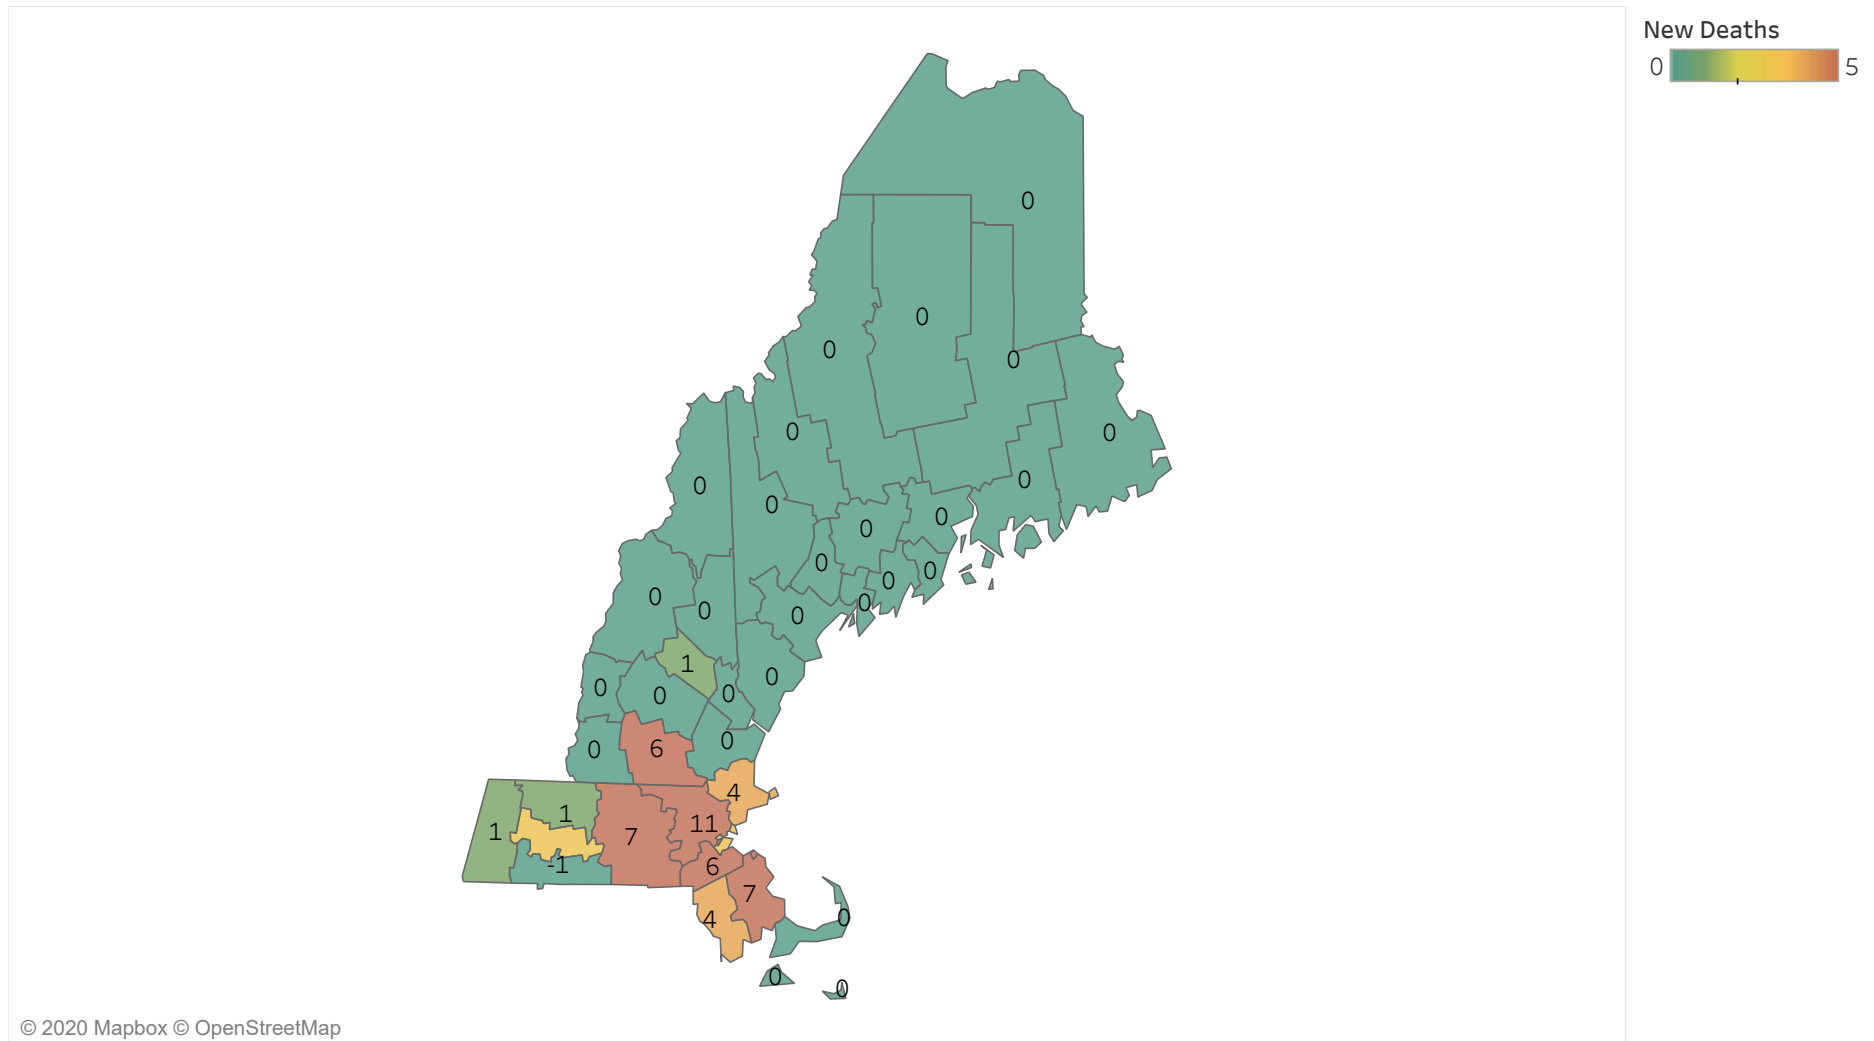

Map based on Longitude (generated) and Latitude (generated). Color shows Tot Deaths / 10K as an attribute. The marks are labeled by Tot Deaths / 10K as an attribute. Details are shown for State, County and MAX Date. The view is filtered on State and County. The State filter keeps Maine, Massachusetts and New Hampshire. The County filter keeps 1,785 of 1,785 members.

New Deaths by County

(Data 6/12/2020)

(Daily Death Incidence)

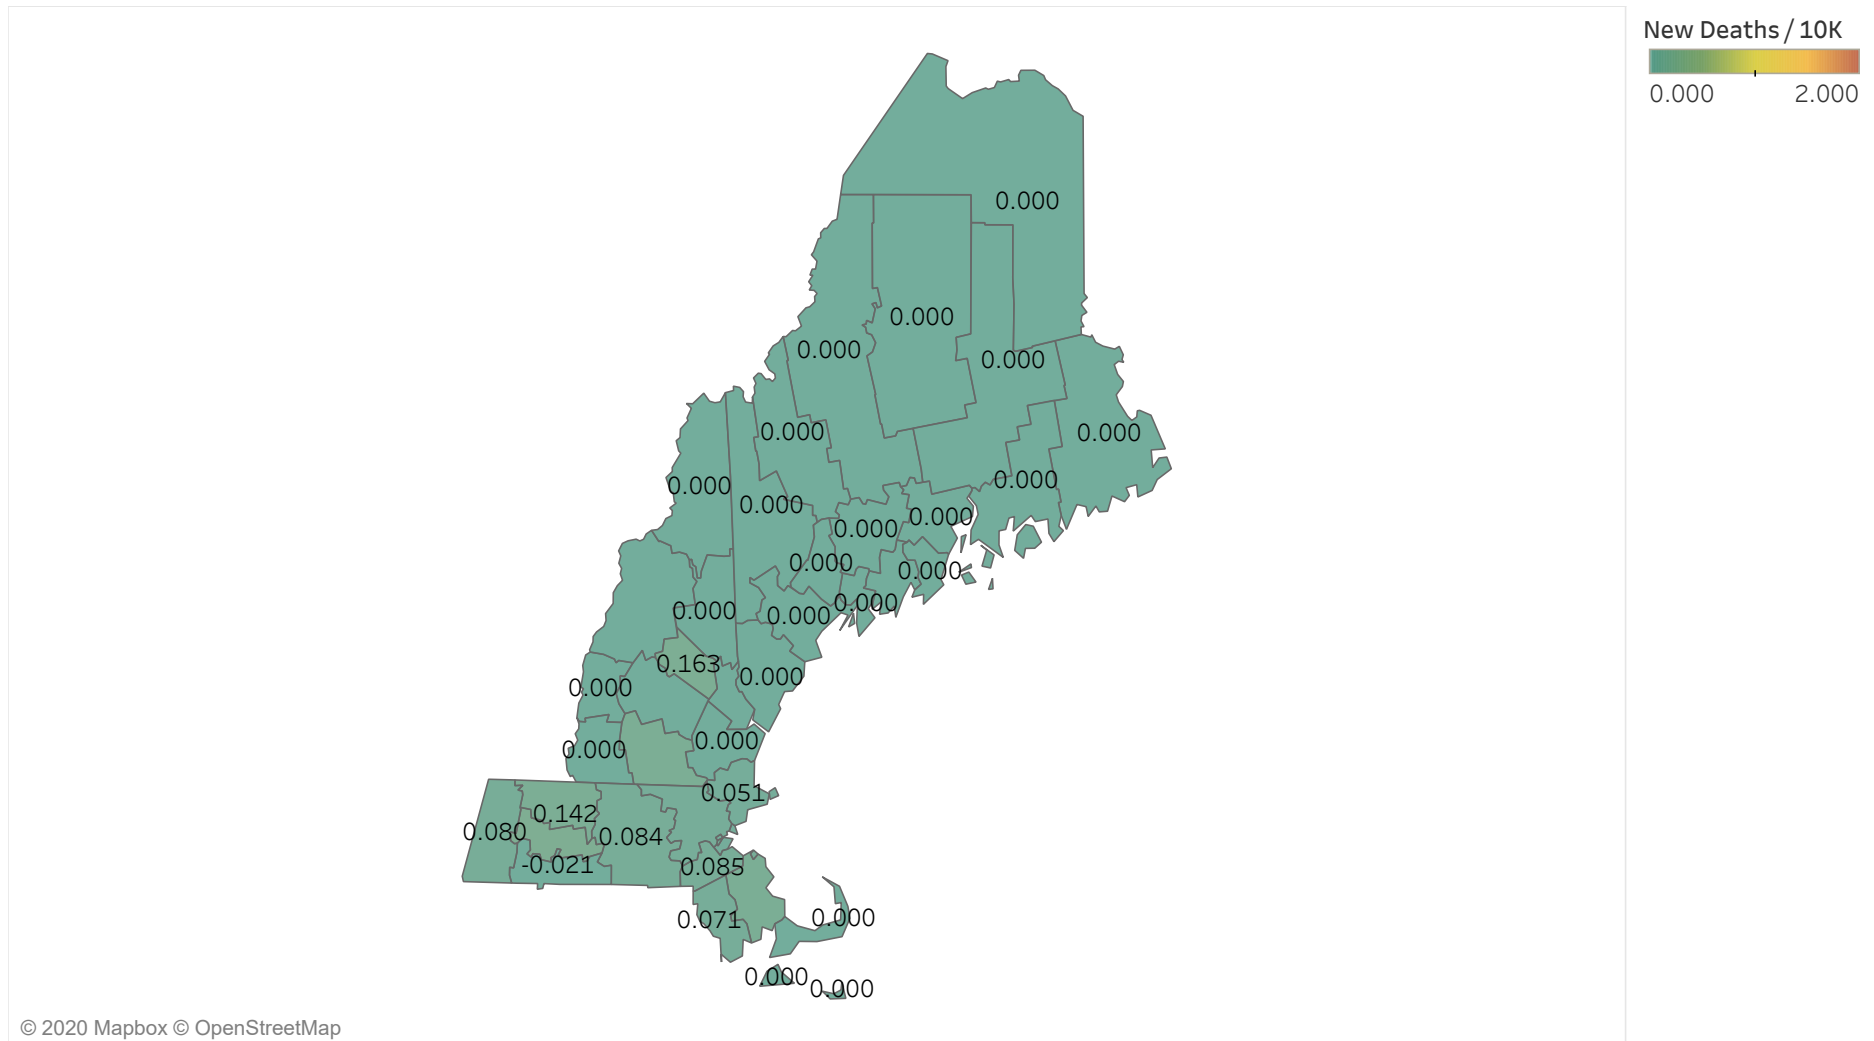

Map based on Longitude (generated) and Latitude (generated). Color shows New Deaths as an attribute. The marks are labeled by New Deaths as an attribute. Details are shown for State, County and MAX Date. The view is filtered on State and County. The State filter keeps Maine, Massachusetts and New Hampshire. The County filter keeps 1,785 of 1,785 members.

New Deaths / 10,000 by County

(Data 6/12/2020)

(Population-adjusted Daily Death Incidence)

Map based on Longitude (generated) and Latitude (generated). Color shows New Deaths / 10K as an attribute. The marks are labeled by New Deaths / 10K as an attribute. Details are shown for State, County and MAX Date. The view is filtered on State and County. The State filter keeps Maine, Massachusetts and New Hampshire. The County filter keeps 1,785 of 1,785 members.
